

Fain Wins Award
For Physics Work

Bill Fain won the award for outstanding physics student research during the scholastic year at the Physics Colloquium Thursday.

The award, presented by Sigma Pi Sigma, physics honor society, consists of having his name inscribed on the award plaque located in the Physics Library, and receiving a gift of the book of his choice.

The award is presented annually to a student in physics who has demonstrated a high degree

of individual initiative and ability in the satisfactory completion of a research project of a level comparative to his scholastic position.

Fain's research was entitled "Applications of the Multiplication of Fourier Series." It was a numerical evaluation in closed form of certain classes of infinite numerical series, and a rapid method of pulse analysis.

Herbert Schwetman discussed "Solutions of Electrical Networks by Means of Laplace Transforms and a Harmonic Synthesizer." His problem was that of the mathematical formulation of the behavior of various electrical circuits and the prediction, theoretically, of the action of such systems.

A third contestant, August Wittenborn, was not present to give the oral presentation of his research, but was entered on his written presentation. His topic was "The Propagation of Shock Waves in Gas Spheres" and dealt with the problem of obtaining mathematical expressions which describe the radiation of pre-nova stars of our universe.

UT Geographers
In Mexico Study8 Students in US
Selected for Trip

Eight students from five United States universities have been chosen to take part in the second geography field school in Mexico from June 17 to August 25, Dr. Donald D. Brand, professor of geography, said.

The University of Texas students going are M. J. Howard, graduate student in Spanish and history; G. W. Porter, graduate in geography and government; and Coyle E. Singletary, teaching fellow in geography. Dr. Brand is the only faculty member taking part, but Jose Corona Nunez, director of archeology in Mexico, will join the group in Mexico.

Two students from the University of Michigan, one from SMU, one from the University of South Carolina, and one from Clark University will complete the party.

The purpose of the field trip is to give geography majors field experience, bring together people of different fields of knowledge but with common interests in Latin America, and develop an integrated inter-departmental approach to regional research, Dr. Brand said.

The students will assemble in Morelia on June 17 for their study of southwestern Mexico. Each student will submit a notebook and term paper on some particular topical or regional problem.

Eight semester hours credit will be given for the ten-week field course, Geography 873.

Lecturer to Speak
On World Order

Charles Monroe Ios, former member of the Baha'i Inter-American Committee, will give two lectures at the University YMCA on the next two Sundays. He has recently returned from a tour of Latin-American countries.

"The Roads to World Religion," will be the first lecture Sunday at 3 p.m. "World Order—Is It Possible?" is the topic of the second lecture to be delivered at 3 p.m. May 27.

Mr. Ios, graduate of Northwestern University and the University of Michigan School of Law, where he majored in international law, is acquainted with the legal problems of world organization.

A former chairman of the National Baha'i Youth Committee in the United States and Ann Arbor, Michigan Baha'i Assembly, he has lectured on the Baha'i World Faith throughout this country and Latin America.

Phi Mu's Breakfast Sunday

Phi Mu's will gather at the house Sunday at 9:30 a.m. for a breakfast honoring the graduating seniors. There will be a program reviewing the past year. Following the program the sorority will go together to the 11 o'clock service at All Saints' Chapel.

Forty Acres

By RUSS KERSTEN

A pharmacy student reviewing for his 613a final was surprised to find in his notes (previously unread, of course) this quotation from lecture:

"... Addition of foreign matter with fraudulent intent; however, one who adulterates drugs is not necessarily an adulterer."

Journalism prof Granville Price, sponsor of Sigma Delta Chi, professional journalistic fraternity, thanked the chapter for a surprise gift of a belt in this sparkling manner: "Thank you gentlemen for your support."

Steers Must Win Today to Avoid
Playoff as Ags Take Opener, 4-2

By KEN TOOLEY

Texas Sports Editor

COLLEGE STATION, May 17.—(Spl.)—Home runs by Yale Lary and Henry Candelari and six-hit pitching by Pat Hubert gave the Texas Aggies a 4-2 victory over the Texas Longhorns here Thursday, leaving the Steers still needing one more triumph for a clean-cut Southwest Conference title.

The two rival teams will meet in the final crucial game today at Kyle Field to decide the issue. A victory for the Longhorns will send them to the NCAA regional tournament in Arizona the early part of June.

An Aggie triumph will mean a playoff between Texas and A&M to determine the Conference representative.

Boasting the best team batting average in the Conference, Texas found itself in a slump as Hubert allowed only six hits while going the route for Coach Beau Bell's Cadets. Hubert

struck out eight Steers, and allowed seven walks. The little righthander walked the bases loaded in the ninth but pitched his way out of trouble.

The leading hitter of the day was Lary who connected with lefthander Jimmy Hand's pitches for a homer, double, and two singles in four trips to the plate. Lary, who has been shifted from first base to left field, blasted his homer in the first inning with teammate Guy Wallace on base to give the Cadets an early 2-0 lead.

The Aggies made it 3-0 in the second inning when Candelari poled his four-master with the bases empty.

Harry Bengtson, who has been in the centerfield spot the latter part of the season, helped put the Steers back in contention in the sixth when he blasted a 355-foot homer, his first of the season.

But the Longhorns could muster only one more run off Hubert, which the Aggies quickly matched, both runs coming in the eighth.

Sophomore Hand started on the mound for the Steers and continued through seven and one-third innings before he was relieved by righthander Jim Ehrler. This was the first action for the Longhorns' number-one pitcher since the meeting between Texas and A&M in Austin last month.

Ehrler, who has been on the shelf because of a sore arm, showed good form in his return to the mound, despite walking two men. He retired the side by striking out two batters.

The fielding gem of the day came on Lary's double in the fifth inning. Guss Hrncir robbed the junior outfielder of a round-tripper as he backed up against the right-field fence, jumped high in the air and batted the ball to the ground. He almost made the catch but the ball was too high.

Immediately following Hrncir's brilliant defensive work, Bigham went up against the fence along the rightfield foul line to make an excellent catch to retire the side and end the inning.

Frank Kana rapped a single between first and second to start the Steers off toward their final run in the eighth. After moving to second on a fielder's choice, Kana scored on an error by second baseman Joe Eorette.

A&M scored their final run in the eighth after Hand had given up two singles and thrown a wild pitch that allowed Lary to score from third. Hand struck out John DeWitt. Then Ehrler came in to strike out the final two Aggie batters.

Runs batted in: Lary 2, Candelari, Bengtson, Wallace, Hrncir, Kana, Henson, DeWitt, Hand, Ehrler, Eorette.

Double plays: Hand to Bigham, left on base; Texas 11, A&M 8. Struck out by: Hubert 8, Hand 6, Ehrler 2. Bases on balls off: Hubert 7, Hand 3, Ehrler 1.

Hits and runs off: Hand 9 and 4 in 7; Ehrler 0 and 0 in 1. Wild pitch: Hand.

Ehrler. Losses: Hand, Time: 2:10.

5 Months Needed
On New J Building

You might say the hole's being filled slowly but surely—and you'd be right if you were referring to the vacancy left by old A Hall next to Andrews Dormitory.

The new Journalism Building now under construction should have been finished by this time, said C. B. Wright, brick and stone superintendent, but there was a shortage of stone and bricklayers.

The outside of the building should be completed in from six to eight weeks, and the inside about three months after that, Mr. Wright said.

With a third of the masonry up, both wings of the school building should be finished in two weeks, he added.

The total cost of the structure—including furniture and construction—is expected to be around \$800,000.

Offices, classrooms, labs, a library and the offices of the Texas Student Publications will be housed in this air-conditioned building of Spanish Renaissance design.

The structure will include a basement and three floors. The area covered will be about 53-by-150 feet.

Curator Speaks
To Fault Finders

Dr. Edwin Harris Colbert, professor of vertebrate paleontology at Columbia University, will speak to the Fault Finders, geology society, Friday at 7:30 p.m. in Texas Union 309-11.

In addition to his professorship, Dr. Colbert is curator of fossil reptiles and amphibians at the American Museum of Natural History in New York City, and is an expert on evolutionary studies on fossil amphibian and reptiles.

Author of "The Dinosaurs" and several hundred scientific papers, he has been on expeditions to India and Burma. His most recent work is on the Triassic formations of New Mexico and Arizona.

Student Gets \$1,800
For Wetback Research

Carlos Cadena, graduate law student, was awarded a John Hay Whitney Foundation grant for \$1,800 to be used from June of this year until June, 1952. Cadena is doing law and sociology work in his research on the wetback problem of Texas.

Another Texas, Samuel Clifford Adams Jr., was awarded a similar grant to continue his sociology studies at the University of Chicago.

Business Alumni Plan
Homecoming Next Fall

A homecoming week end for alumni of the College of Business Administration is planned for next fall. To be held on October 5 and 6, the week end of the North Carolina game in Austin, the conference will consist of addresses, luncheons, dinners, and a clinic.

Dr. Ralph J. Watkins, economist for Dun and Bradstreet, and D. L. Bibby, vice-president of International Business Machines Company will speak. Friday afternoon clinics will be held in accounting, banking and finance, insurance and real estate, management, marketing, secretarial and business education, and transportation. The convention will end with an address by C. R. Smith, president of American Airlines.

Ask Financial Aid
From Ex-students

Mailing lists requesting financial gifts for the University from ex-students should be completed by June 1, John A. McCurdy, executive secretary of the Ex-Students Association, announced Monday.

The program was inaugurated by the Ex-Students Association to secure needed funds for the University.

The contributions to the annual gift program will be used for scholarships, travel expenses, and new equipment, or the giver may designate the use for which the money is given.

The program is patterned after existing programs in other leading universities. Last year Ohio State received \$339,274 which was given by 14,555 alumni.

Kirby Hall Getting
New Room Phones

A more convenient system of communication will be at the disposal of residents of Kirby Hall next September. The board of control of the girls' dormitory recently decided to install telephones in all of the 55 rooms in the building.

The phones have been ordered and will arrive within ninety days, in time for the fall semester. At present there are only three phones for each floor located in the halls. The additions will be connected to the central switchboard, which has four outside lines.

A fee of 75 cents per person will be levied next year, with a 50-cent charge for each year thereafter until the installations are paid for.

Mrs. Irene T. Powers, resident director of Kirby Hall, also announced that new venetian blinds will be installed this summer. The board of control, which is under the supervision of the Methodist Church, last year spent \$30,000 refurbishing the building.

College Student Draft
Postponed 3 Months

Up to three months' postponement was authorized Thursday on the drafting of college students. State draft headquarters said the delay will be permitted to allow students to furnish local boards with scholastic standings or results of college qualification tests. Local boards need the information in considering student deferments. State Director Paul L. Wakefield said.

Sam Rayburn to Be Speaker
For Commencement June 2

Baccalaureate and commencement exercises for this year's graduating class—the University's sixty-eighth—will be held on the terrace in front of the Main Building, C. Read Granberry, marshal for the exercises, has announced.

Baccalaureate services will be held Sunday, May 27, and commencement exercises will be June 2. Both will begin at 7:45 p.m.

Speaker Sam Rayburn of the US House of Representatives will deliver the commencement address, and Dr. Hugh M. Tiner, president of George Pepperdine College, Los Angeles, will give the baccalaureate address.

Mr. Rayburn, who has been Speaker of the House since 1940, has been suggested as a presiden-

tial candidate for the Democratic national ticket in 1952 by an administration supporter. Representative John L. Lyle of Corpus Christi. Speaker Rayburn of Bonham studied at the University School of Law in 1907 and at the East Texas State College at Commerce. He served in the Texas House of Representatives for six years before going to Washington. During his 38 years in Congress, he has been an outstanding leader in New Deal legislation and has served as chairman of the Interstate Commerce Committee.

Speaker Rayburn received the Collier's Congressional Award in 1949 for his distinguished service to the nation during the previous year.

Dr. Tiner was appointed president of George Pepperdine College in 1939. He is one of the youngest men ever to will such an office. His undergraduate work was done at Abilene Christian College. He Stanford in California, and his doctor of philosophy degree from the University of Southern California.

At present, Dr. Tiner is a member of the Board of Directors for the Rotary International, after serving as past Rotary district governor in California.

The formal commencement exercises Saturday evening will begin with the academic procession, which will form on the two walks just north of Littlefield Memorial Fountain at 7:30 p.m. Signs will indicate the gathering places of each group.

Thirteen to Thousands

UT's Passing Parade Alters
June Graduation Ceremony

Commencement exercises today are a far cry from those of 1884 when thirteen young men walked across the stage of the Millet Opera House to receive the first degrees conferred by The University of Texas.

Graduates wore black suits and the stiff-necked collars instead of the black cap and gown worn today. The custom of wearing caps and gowns began in 1895 when a commission of leading American educators met at Columbia Uni-

versity to decide what the well-dressed college graduate should wear.

In 1914 with the organization of Cap and Gown, the University officially adopted the custom of the black gown. The different shape of the sleeve, color of the trimming, and size of the hood signify the degree being conferred.

Bachelor of arts and science is black; bachelor of music, pink; bachelor of physical training;

sage; bachelor of business administration, drab; bachelor of fine arts, brown; bachelor of education, light blue; bachelor of home economics, yellow; bachelor of pharmacy, olive; bachelor of engineering, orange; bachelor of journalism, black and white; master of arts, white; doctor of divinity, dark red; and doctor of philosophy, dark blue.

No reason was given by the members of the commission for their choice of academic colors. It is just another unsolved mystery of the rituals of graduation.

Getting a degree now is much easier than it was formerly. Up until the middle of the last century in England and other European countries, candidates for degrees had to prepare a thesis in Latin, read it publicly, and defend it against a doctor of their faculty as well as all other comers.

But the British are one step ahead of us now; it takes them only three years instead of four to get a bachelor's degree.

'Miner's Daughter'
Will Close Saturday

The Austin Civic Theater's production, "The Miner's Daughter," an original melodrama by Director Mel Pape, will close temporarily after the Friday and Saturday performances.

"Light Up the Sky," will open Tuesday evening and run through Saturday.

Reservations for both shows, at 2822 Guadalupe, may be made by calling 6-0541. "The Miner's Daughter" starts at 8:15 p.m.

Co-Op to Pay 15% Rebate

Rebates of 15 per cent will be paid by the University Co-Op on this semester's receipts, E. C. Rath, director, said Thursday. Refunds will be paid from May 23 to June 3.

Architecture Prof
Heads Honorary

Nolan Barrick, associate professor of architecture was chosen Grand Chapter Master of Tau Sigma Delta, national honorary architectural fraternity, at the annual convention of the fraternity held in Chicago recently.

The convention was held in conjunction with the American Institute of Architecture and the Association of Collegiate Schools of Architecture conventions.

University faculty members attending were Professor Goldwin Goldsmith, Associate Professor Robert W. Talley, Assistant Professor Cal Briggs, Assistant Professor Martin Kernacy and Mr. Barrick.

Barrick's position of Grand Chapter Master is comparable to that of national president.

The University chapter of the fraternity recently elected Bernard Phillip Harris, chapter master; Bobby Gene Moore, scribe; and Ralph Pershing Ball, recorder. The group is the only architectural fraternity in the allied arts that is a member of the Association of Collegiate Honor Societies.

Serves Him Right

Cleve O. Leshikar, editor of the Texas Literary Quarterly, is the author of "The Day of the Flight," second-place winner in the D. A. Frank poetry contest, rather than James Brooks as the Texas reported. James Brooks is the pen name under which he entered the contest.

Roach to Australia
On Fulbright Aid

Dr. James R. Roach, assistant professor of government, has been awarded a post-doctoral research grant under the Fulbright Act for a year of study in Australia. He will leave in August.

He will study the factors that influence the Australian foreign policy, which only recently has become distinct from that of Britain.

Australia went along with the

British foreign policy until 1940 when they first adopted an individual foreign policy and sent out her own ambassadors and representatives, he said. They still confer with the British, however, he added.

Dr. Roach explained that Australia developed her own policy because she is a white, Western-thinking nation surrounded by Asia and because she wants the prestige offered by an individual state membership.

He will study at the National University in Canberra and travel as much as possible, visiting each of the six state capitals.

Dr. Roach was stationed in Australia during the war for a short time. He received his doctor of philosophy degree from Harvard in 1949.

700 Fulbright
Awards in '52

More than 700 awards will be given to students who wish to undertake graduate study or research abroad during the 1952-53 academic year under the terms of the Fulbright Act, the Department of State has announced.

These grants will provide opportunities for students in all fields of graduate work and those with specialized research projects to study in foreign universities.

The awards are generally made for an academic year and include round-trip transportation, tuition, a living allowance and a small amount for necessary books and equipment. All grants are made in foreign currencies.

Interested students in the University should request application forms from the International Advisory Office, B. Hall 21. October 15 is the closing date for receipt of applications.

'TSO' Record Albums
Go On Sale Saturday

The Tower Chimes will ring out selections from this year's "TSO" Friday at 12:50 o'clock to announce the arrival from Hollywood of record albums of the campus show's hit songs.

The special release 4-record album, containing 8 songs by Tommy Jones and Harvey Schmidt, will go on sale Saturday at the University Co-Op. Supply of the albums is limited.

Booklet on Industry Ready Soon

A tabulation of the establishment and expansion of industry in Texas during 1950 will be made by the University's Bureau of Business Research. Requests for the free publication should be addressed to Stanley A. Arbingast, Bureau of Business Research, The University of Texas, Austin 12, Texas.

Schoolboy Nines Set for Playoffs

State Tournament In Austin June 4-6

Based on Associated Press

The Interscholastic League got set Thursday for state championship playoffs in Class AA baseball.

The League announced 16 district winners and pairings for bi-district playoffs. These will match:

- Odessa and Thomas Jefferson of El Paso.
- Abilene and Wichita Falls.
- North Side of Fort Worth and Crozier High of Dallas.
- Waxahachie and Highland Park.
- Bryan and Tyler.
- South Park of Beaumont and Robert E. Lee of Baytown.
- Stephen F. Austin of Houston and Austin.
- Miller of Corpus Christi and Edinburg.

Bi-district champions must be determined by May 28. The eight survivors will play in the State Championship Tournament in Austin June 4-6.

This year's eliminations mark resumption of rivalry between Class AA schools and members of the defunct City Conference.

Frosh Run Tonight In Coliseum Relays

By SAM BLAIR

In an act comparable to a colt running in the Kentucky Derby, a quartet of fleet-footed Texas freshmen sprinters will enter a pair of California track meets this week end which are usually reserved for the veteran stars of the cinder sport.

Dean Smith, Jim Brownhill, S. M. Meeks, and Charlie Thomas will compete in the Coliseum Relays at Los Angeles tonight and the California Relays at Modesto Saturday afternoon.

The feats of the swift first-year foursmen—which include the nation's second fastest sprint relay time of 41.5—have attracted nationwide attention this spring. As a result, they were extended invitations to run in the two California meets, which annually climax regular-season cinder competition.

However, the freshmen will have to share the limelight with one of their big brothers, Charlie Meeks, two-time Southwest Conference broad jump champion, will attempt to maintain his undefeated status in the two California classics. Older brother of the

sprinter, the Longhorn jumper has won his specialty at the Texas, Kansas, and Drake Relays. His best jump thus far this season has been 24 feet 9 inches, the fourth best jump recorded in the United States during 1951.

The sight of the orange and white spangles of the University of Texas will not be an unfamiliar sight to West Coast track fans. For it was in these same cinder carnivals that Longhorn trackmen gave some of their most brilliant performances.

It was just three years ago, in 1948, that a Steer 440-yard relay team of Perry Samuels, John Robertson, Allen Lawler, and Charles Parker sped around the Coliseum oval in 40.6 seconds—just missing the world record by a tenth of a second.

Just to prove that their remarkable Los Angeles performance was no fluke, the same quartet negotiated the quarter-mile course at Modesto the next day in 40.9, a California Relays record.

During his 31 years of guiding Longhorn track fortunes, Coach Clyde Littlefield has produced a number of other record-setting

spring combinations.

In 1936, the team of Beverly Rookhold, H. V. Reeves, Charley Grunstein, and Chink Wallender captured the 440 event at the Penn Relays with a record-breaking clocking of 41.4.

Five years later, the Longhorn herd of Bill Seay, Carlton Terry, Fred Ramsdell, and Lonnie Hill stampeded to a Drake Relays mark of 41 flat.

Steer sprinters inscribed their names in the record books again in 1947 when an aggregation of Samuels, Charley Tatom, Lawler, and Parker raced to victory in the Texas Relays with a record-tying time of 41.4.

Texas' latest claims to fame were made last year by the foursmen of Floyd Rogers, Carl Mayes, Samuels, and Parker when they established the Southwest Conference mark of 41.1.

The eyes of Texas track followers will undoubtedly be cast in the direction of California this week end. And if history is any indication, there is a good chance that they will not be disappointed.

CHARLIE MEES

Softball Tourney Starts Saturday

The second annual Invitational Collegiate Tournament gets under way Saturday morning at Whitaker Field with eight teams in the running.

The UTSA All-stars will enter two teams for the University against teams from A&M, Trinity University of San Antonio, Schreiner Institute, Stephen F. Austin, Sam Houston State, and Southwest Texas State.

The two teams from the University—the White team and the Orange team—will have two of the outstanding pitchers of the intramural program handling the pitching chores. C. B. Sumrall of SPE, and Harold Crow of AIME are slated for mound duty.

UT Fans Rejoicing As Ehrler Returns

Texas Longhorn baseball fans received cheering news Thursday, despite the 4-2 loss the Steers suffered at the hands of the Texas Aggies in Anglieland.

That cheering news was the return to action of Texas' number one pitcher—Jim Ehrler, senior right-hander from San Antonio.

Ehrler, who started out the season like a house afire, and had won four games in Conference play without defeat, has been forced to sit out the Steers' stretch drive with a sore arm, suffered while pitching against TCU in April.

The tall, handsome fast-baller pitched one more game after that—against the Aggies here—but was relieved early, after the sore arm began to act up on him.

Ehrler, who pitched a hitless, runless game in the 1950 NCAA baseball tournament in Omaha, got into Thursday's game for just 2 2/3 of one inning, but recorded two strike outs. However, he walked two and threw a wild pitch.

Ehrler, who has been under study to such luminaries as Murray Wall and Charlie Gorin for the last two years, sparked the under-rated 1951 club in its early-season activity. At one time, before the sore-arm malady hit him, he recorded fifty strikeouts in 36 innings.

Though it's still too early to hope for complete recovery for the big Longhorn, the mere fact that he did see action Thursday opens the door to the possibility that he may be back on the mound for the Longhorns before the current campaign is written into the record books.

Ehrler, who came into stardom in his senior year, followed the same pattern as two previous Longhorn stars—former major-leaguer Tex Hughson and All-America Wall.

Dallas Gets Conyers On Option from Tribe

DALLAS, May 17.—(P)—Herb Conyers, hard-hitting first baseman, was obtained by Dallas on option Thursday.

Conyers, who led the Texas League with a .355 average in 1949 while playing with Oklahoma City, came to Dallas on option from Cleveland. He has been with Seattle of the Pacific Coast League.

Joe Macko, young first baseman, has been optioned to Wichita, of the Western League, to make room for Conyers.

Jackson, Ex-Longhorn, Stars for Cubs Again

Based on Associated Press

For the second straight day, the batting of a former University of Texas star—Ransom Jackson—led the Chicago Cubs to a victory over the Brooklyn Dodgers Thursday.

In the Cubs' 7-0 victory, Jackson added a home run and two singles to his average. In Wednesday's 14-4 romp, the former Longhorn had smashed two home runs.

In other action Thursday, a clutch single by Joe Dimaggio and some great pitching by Alie Reynolds combined to defeat the Cleveland Indians, 1-0, in Yankee Stadium.

Conrado "Chico" Marrero, making an unexpected start, snapped a four-game Washington losing streak, beating Detroit, 11-6. The Cuban right-hander allowed sixteen hits, but was never threatened after a five-run Washington third inning sewed up the game.

Rammin' Ralph Kiner connected for his sixth home run of the season and a double, to drive in five runs and pace the Pittsburgh Pirates to a 12-7 victory over the stumbling New York

Giants. Murry Dickson was the winner, Monty Kennedy the loser.

The Cincinnati Reds were staggering at the finish, but held on to defeat the Boston Braves, 6-5, in Cincinnati. Taking a 6-0 lead after five innings, they saw it all but vanish as starting and winning pitcher Willie "the Knuck" Ramsdell weakened in the late frames.

A scheduled game between the Chicago White Sox and the Boston Red Sox was postponed because of cold weather.

In a night American League affair, Gus Zernial continued his fence-busting tactics, whamming out a first-inning four-master to lead the Philadelphia Athletics to a 7-6 victory over the St. Louis Browns.

Zernial's blast was his seventh in four games, tying an American League record set by the Yankees' Tony Lazzari in 1936.

In a National League arc-light contest, rookie St. Louis Cardinal hurler Joe Presko beat the Philadelphia Phillies, 2-1, in St. Louis. Presko had a shutout for 8 2/3 innings, only to see it ruined by the Phil's Andy Seminick, who hit a last-gasp circuit clout for the Quakers' only score.

As a result, the Phillies—defending National League champs—stayed in the League cellar.

Many Jobs Waiting For Students' Wives

There's a quick, easy way for wives of students to get good-paying part or full time jobs in Austin.

At Durham's Business College here, girls can learn "Speedwriting," the modern, nationally-known shorthand in only six weeks time.

"Speedwriting" is entirely unlike the old shorthand methods. "Speedwriting" uses the ABC's—it just turns your longhand into shorthand.

Visit or write Durham's at 600A Lavaca Street—or telephone 8-3446 for full information.

Durham's is exclusively authorized to teach "Speedwriting" in Austin. It is the only business college here bearing the approval of the State Department of Education and fully accredited by the American Association of Commercial Colleges.

SHORTHAND IN 6 WEEKS

At Durham's Business College, you can learn to write fast and legible shorthand in only six weeks. This is a real opportunity for students' wives to get a good-paying job while their husbands are in school.

TOP EARNERS WANTED

The Summer Texan has openings right now for men or women who can sell—and who want to earn money.

The Daily Texan has several openings on its staff for next Fall and the Texas Ranger has openings on its staff for July (that's when we start selling for the September Ranger).

If you can sell and want to earn good money and at the same time train for a good job in advertising when you graduate this is your opportunity.

You will find yourself working with as bright a group of students as there is on the campus. You will work, but you'll have a lot of fun. You will earn a fair income and you will gain experience that will be as valuable to you as any course you are taking.

If you think you can sell advertising—apply right now to F. R. Moerke, advertising manager of Texas Student Publications, JB 108.

EVER HOLD HANDS LIKE THESE?

They're not soft and warm, these hands. They're hard and cold—and mechanical. They work at the Oak Ridge atomic energy plant, preparing radioactive isotopes for shipment to Bell Telephone Laboratories and to other research centers.

These isotopes—which serve as tracers—are used by Bell scientists to study the materials that go into the telephone system. Our research men, working with Geiger counters, are able to detect wear in relay contacts, impurities in metals, the penetration of preservatives in wood.

This new research tool helps us to learn more in less time, helps us to make telephone equipment even more rugged and dependable. That's especially important right now when the Nation relies on the telephone to help get things done.

BELL TELEPHONE SYSTEM

Embargo of Red China Approved by UN

NEW YORK, May 17—(AP)—The UN Political Committee, disregarding Soviet objections, recommended yesterday a worldwide strategic embargo against arms and war supplies for Red China. The 60-nation General Assembly is expected to give it final approval tomorrow.

The Political Committee vote was 45 to 0, with nine abstentions. The Soviet bloc of five countries did not go on record. Countries abstaining were Afghanistan, Burma, Ecuador, Egypt, India, Indonesia, Pakistan, Sweden, and Syria.

Deputy Foreign Minister Jacob A. Malik of Russia charged the United States was trying to put over a "Shanghai-style" resolution in the embargo move. He and the other four in the Soviet Bloc insisted the Security Council alone can deal with embargoes.

The heart of the resolution is this paragraph, recommending that all states, both UN members and non-members: "Apply an embargo on the shipment to areas under the control of the Central People's Government of China and of the North Korean authorities of arms, ammunition, and implements of war, atomic energy materials, petroleum, transportation materials of strategic value, and items useful in the production of arms, ammunition and implements of war."

The quick action of the Committee surprised several delegates.

Aligator killed in Dallas Lake
DALLAS, May 17.—(AP)—Three young outdoorsmen shot and killed a giant alligator in White Rock Lake here Wednesday night, following a dramatic speedboat chase across the water.

The Committee, by silence, showed it would not go along with Malik and he then served notice he would not take part in the debate. As delegate after delegate lined up behind the embargo proposal, Malik calmly read a newspaper.

It was the first time in history that so many countries have backed collective action in such a far-reaching embargo. It is to halt the shipment to Communist China of every scrap of strategic materials that can be used to make war.

Senate Committee Upholds Bradley

WASHINGTON, May 17—(AP)—Senate investigators decided 18 to 8 today that they cannot compel General Omar N. Bradley to reveal what was said between President Truman and his advisors at a meeting which led to the ouster of Gen. MacArthur.

The Senate armed services and foreign relations committee thus upheld their presiding officer, Senator Russell (D-Ga.), who ruled Bradley was within his rights in refusing to disclose the conversation. Bradley declared his value as a confidential adviser to the president would be ruined if he talked.

The vote kicked up a new controversy in the Truman-MacArthur dispute with charges and denials that the inquiry into MacArthur's dismissal has taken on "political overtones."

President Truman spoke out with a glimpse into what went on at the White House meeting April 6—five days before MacArthur was fired.

He said he had been thinking of firing MacArthur off and on for a year—but hadn't made a decision until the General offered on March 24 to talk peace terms with the Red Commander in Korea. The President referred to this offer as an ultimatum. Administration men have asserted it

threw a wrench into a settlement attempt Mr. Truman himself was planning at the time.

In the now-famous meeting, Mr. Truman said Secretary of State Acheson urged caution since the ouster would kick up a political fuss. But he added that after hearing all the arguments, Acheson agreed with the others that MacArthur had to go.

Some Republicans have said that Acheson urged the dismissal of MacArthur.

Commander-in-Chief of the United Nations Command.

SAN FRANCISCO, May 17—(AP)—The Red China Radio asserted today that testimony in the U. S. Senate inquiry into General MacArthur's dismissal "reveals that America's appetite for aggression is at the moment greater than its ability to satisfy it."

WASHINGTON, May 17—(AP)—Contempt of court charges against Dr. Joseph W. Weinberg, the "scientist X" of an investigation into alleged atomic spying, were dismissed today.

Federal Judge Alexander Holtz ruled Weinberg was within his constitutional rights when he refused to answer questions put to him by a Federal Grand Jury here.

And in Columbus, Ohio, the State Legislature passed a bill permitting husbands to sue wives for alimony.

He went so far as to say his astonishment bordered on incredulity and added: "It is difficult to reconcile this with my appointment by him as

Commander-in-Chief of the United Nations Command.

Truman Speech Raps MacArthur and Taft

WASHINGTON, May 17—(AP)—President Truman challenged Gen. MacArthur and Republican Senator Taft today for advocating policies he said would put the United States in "an all-out war in China all by ourselves."

"One week of all-out war," the President asserted, "would cost us 10 to 20 times" more per week than the Administration proposes to spend under its new \$60,000,000,000 Defense Budget.

Later Mr. Truman told reporters World War II cost \$450,000,000,000 and another world war might easily cost \$600,000,000,000.

In a fighting mood, Mr. Truman practically threw away a prepared speech to defend his far eastern policies before the National Conference on Citizenship.

"We must have some friends in this world," he said in a reference to the reluctance of Allied countries to join the United States in an extended war against Red China. "Some Senators and some other people would have us go it alone."

"Never was there a time when the right decisions were more necessary than at this time," he went on.

Korean Casualties Up
1,468; Now 65,523

WASHINGTON, May 17—(AP)—Announced US casualties in Korea Thursday reached 65,523, an increase of 1,468 since last week.

The total covers casualties reported to families through May 4, and includes 9,848 killed in action, 44,669 wounded and 11,006 missing.

Of the wounded, 1,163 later died. Also known dead are 101 of the missing. This raises the total of deaths to 11,112.

Army casualties increased 1,301 during the week to reach 54,416. The Navy reported a new total of 691, nine more than last week. Marine Corps casualties rose 136 to reach 9,831. The Air Force reported 22 additional casualties for a total of 585.

And in Columbus, Ohio, the State Legislature passed a bill permitting husbands to sue wives for alimony.

He went so far as to say his astonishment bordered on incredulity and added: "It is difficult to reconcile this with my appointment by him as

Commander-in-Chief of the United Nations Command.

Annual Picnic Planned by 'Y'

City Park has been selected for the location of the annual all-'Y' picnic honoring graduating seniors. Location for the picnic was announced Wednesday by Rhoda McKnight and Mel Aden, co-chairmen of the spring 'Y' event.

'Y' members, their guests, and dates will meet at the 'Y' at 1:30 Saturday afternoon and go to City Park. Recreations will include swimming, baseball, and other games to be directed by Hugh Echols.

Jody Edmondson is in charge of food and Timmy Miller and Ed Frost are chairmen of entertainment. The picnic will be closed by Mary Pat Dowell and Bert Tippet.

Over the T-Cup—

APO, Omicron Nu To Install Officers

Alpha Phi Omega, service fraternity, will meet Sunday at 2 p.m. in Texas Union 309 to install recently elected officers.

They are Jerry Wohlford, president; Stanley Moos, 1st vice-president; Andy Anderson, 2nd vice-president; Scott Nisbet, secretary; Kenneth Cox, treasurer; Allen Tyler, alumni secretary; and Leo Lee, reporter. Also Ken Willis, historian; and Delbert Stephens, dog catcher.

Omicron Nu, honorary home economics fraternity, will hold its annual breakfast Sunday morning at 9 a.m. in the patio at the Home Economics Building. Installation of officers will be held.

New officers are Mary Hutchins, president; Mabel Hing, vice-president; Jeanne Bullen, secretary; Virginia Warner, treasurer; Betty Lou Ham, editor; and Sandra Cobb, bulletin board chairman.

Sara Lew Link was recently elected president of the Ashbel Literary Society for the 1951-52 term. Other officers are Mary Lee Cowden, vice president; Kay Tutt, recording secretary; Beth Smyth, corresponding secretary; and Nancy Hollowell, treasurer.

New officers for Swing and Turn, square dance club are Betty McDonald, president; Omar William "Pet" Peters, vice-president; Mary Lee Fleming, secretary; and Bill Rhone, treasurer. The faculty sponsor is Dr. W. W. Dornberger, associate professor of architectural engineering.

Swing and Turn will continue meeting during the summer, but summer officers will be elected later.

Mildred Barnes is the newly elected president of Curtain Club, and Pat Hines is the new vice-president.

Members of the board of governors are Jac Farmer, Molly Moffett, Charlie Myler, and Audrey Wood.

Alpha Delta Sigma, honorary advertising fraternity, has elected Hal Copeland, president; Will Tuoly, vice-president; Gene Dow, secretary; Allen Thompson, treasurer; Lem Porter, promotion man.

Copeland was named delegate to the national convention next month in Cape Cod, Mass.

JOAN DICKSON

Rings on Their Fingers

Dickson and Jones To Marry June 7

The engagement and approach marriage of Joan Dickson to John C. Jones Jr. has been announced.

Miss Dickson, who will graduate in June with a bachelor of science degree, is a member of Alpha Chi Omega sorority, Cap and Gown, Association of Childhood Education, Sidney Lanier Literary Society, and San Antonio Club. She was elected San Antonio Rose for 1950-51.

Jones, a member of Sigma Chi fraternity, will be commissioned second lieutenant in Armored Cavalry in June and will graduate from the University in February with a degree in business administration.

The wedding will take place July 7.

The engagement of Miss Rosemary Haskew to Pierce Land Lowrey Jr. has been announced.

Miss Haskew the daughter of Dean and Mrs. L. D. Haskew, was graduated from Austin High School and is now attending the University. She is a member of Chi Omega sorority.

Lowrey is now attending the University and is employed at Capitol Printing Company.

Carothers will honor its sixteen graduates by permitting them to bring either a faculty member or friend who will introduce them during the dinner.

The eleven seniors will be allowed to invite two guests to their dinner and will be introduced by the upper class advisors. The dinner, which will begin at 12:45, will be decorated with spring flowers.

The thirteen June graduates and five August graduates at Scottish Rite Dormitory will be presented at an informal dinner which will begin at 1:10 p.m. Kirby Hall will serve a turkey dinner at 1 p.m.

Panhellenic Rules On Summer Rush

Summer sorority large rush parties, more than twelve attending, must be included within the dates of June 6 to August 15, said Barbara Oster, president of Panhellenic.

Sororities have been limited to two large rush parties, but are unlimited to small rush parties and coke dates. Coke dates may continue until September 10.

No high school girls or August graduates from high school may be included in the summer rush program. Panhellenic has also restricted correspondence to letters. There will be no publicity of rush parties during the summer.

Religious News—

Hotchener to Speak To Theosophists Sunday

"Theosophy's Spiritual Triumph over Death" will be the subject of the address of Henry Hotchener to the members of the Texas Federation of Theosophists, assembled from all parts of the state on Sunday at 3:30 in the ballroom of the Stephen F. Austin Hotel.

Mr. Hotchener, who whimsically calls himself "a peripatetic student of world philosophy and religion" comes on a brief visit to the Theosophists annual convention over the week end.

"Seven visits to China, Japan, India, in the course of the past 35 years have convinced me that the sages of the Orient, and their literature, centuries old, have something useful to teach us Americans about death," says Mr. Hotchener.

The lecture will be free.

Senior student members of the University Christian Church will be honored at a banquet sponsored by the Disciples Student Fellowship Sunday at 6 p.m. at the church.

Rhodes Thompson, associate director for the Texas office of the American Friends Service Committee and former national DSF president, will be the speaker.

New officers for DSF to be installed at the banquet are Fern Halton, president; Fred Coffey, vice-president; Ruth Klemmedson, secretary; and John Lee McMillen, treasurer.

Cost for the dinner will be 75 cents. Reservations may be made by calling the church.

Hillel Foundation is holding a reception for seniors and graduating students Friday evening following.

AOP: to Honor Seniors

Alpha Omicron Pi seniors will be honored with a breakfast at the home of Dr. and Mrs. A. B. Swanson Sunday May 20, at 9 a.m.

The outstanding senior will be given an engraved compact and all members of the sorority will attend. This is the first time the outstanding senior has been thus honored and the ceremony as well as the breakfast will be continued as an annual affair.

Guest speaker at Friday Evening Services, starting at 7:30 p.m. is Rabbi Israel J. Sarasohn of Temple Moses Montefiore in Marshall, Texas.

The annual Intramurals Banquet honoring those who have participated in intramurals during the year will be held Sunday at 6 p.m. at the University Baptist Church.

The banquet will replace the regular Sunday evening supper held prior to Training Union at the church. Bill Foster and Bonnie Southwell, boys' and girls' intramural chairmen, respectively, will act as toastmasters. Joyce Winebrenner, social chairman of the Baptist Student Union, is in charge of the banquet.

There Goes A Well-Dressed Girl—

Greta is wearing a sun-back dress of tissue gingham by McKettridge. The dress is navy blue with red black plaid and has a matching, extra-long skirt. The strapless bodice is slim and fitted, flaring into a swing skirt. Her shoes are navy blue sandals—all at the second-floor dress department of Buttreys, the store for the well-dressed girl.

Getting Ready For Finals?

Dead Week Ends In Frantic Studying

By BITTY BUTTREY

"Dead Week" brought the usual short and excited flurries of studying, but the idea of "one last party before finals" seemed to predominate. Frantic studying began this week end, as finals neared. Seniors ordered invitations and cards and talked about "leaving this place," while underclassmen looked forward to the summer. For many girls, graduation means wedding bells, but for most of the boys, it means the Army or ROTC camp.

A few parties for seniors will be given this week end. Several dorms will honor their senior girls Sunday, and some of the clubs are having farewell meetings. The final day will be June 2, when the graduation is official and several hundred students have "made it."

Greta Nissen, Alpha Phi from San Antonio, is Buttreys' model of the week. Greta, who is majoring in Journalism, is also a member of the San Antonio Club and is an upperclass advisor at Littlefield Dormitory. The lovely blonde was a nominee for Sweetheart of the University and was a Bluebonnet Belle finalist. She was recently awarded a certificate for her work on The Daily Texan and is also on the Cactus staff.

The tissue gingham dress Greta is modeling is one of the many summer frocks which will belong to the McKetrick collection. This group of dresses will be presented in a style show today at 11:30 and at 4 o'clock at Buttreys.

The collection features the new sheath dress in linen and a great many shears. Voile is the outstanding material for summer. Block plaids and florals in voile are highlights of the collection. A new note is the multi-colored dots in sheer materials—all at Buttreys, the store for the well-dressed girl.

Plans for the summer include everything from summer school to recuperating from school. Pat Zeller, freshman pre-nursing student from Richmond, will attend the University of Houston and take her government courses there.

Shirley Hagens, graduate student in bacteriology from San Antonio, will attend summer school here. Billie Grace Ungerer from Flintonia will "go home and just loaf for awhile."

New ACT House To Light Up Sky

Tuesday's Opening Last Spring Show

"Light Up the Sky," the Austin Civic Theater's last production of the season, opens Tuesday evening instead of Monday as reported earlier in The Daily Texan. The play, which will run through Saturday, will be staged in ACT's own theater, the Playhouse, at 2822 Guadalupe Street. Curtain time is 8:15 p.m. Student tickets are 90 cents with Blanket Tax. Regular admission tickets are \$1.50 including tax. Reservations may be made by calling the box office at 6-0541. The Playhouse, new home of ACT, will be formally opened Tuesday night with the Moss Hart comedy success. Refreshments will be served. "Light Up the Sky," in which a number of University faculty members and students are cast, is a comedy about Broadway personalities resembling such show people as Billy Rose, Eleanor Holmes, and Gertrude Lawrence in their behind-the-scenes problems in producing a new show. The popular comedy was recently produced by Houston's Alley Theater, running ten full weeks to capacity houses.

Three UT Artists Win Exhibit Prizes

The Texas Fine Arts Association's membership exhibit, now showing at Laguna Gloria and Elisabet Ney Museum, had three winning entries from the University Department of Art. A piece of sculpture by Charles Unlauft, an oil by Boyer Gonzales Jr., and a water color by Constance Forsythe each won \$100 cash awards. All three winners are associate professors of art. Everett Spruce and Kelly Peering were recommended by the jury for the J. M. Odom purchase prize of \$500.

Others receiving awards were Janet Turner, Lirl Treuter, Blanche McVeigh, and Merit Mauley.

At Laguna Gloria sculpture and oil works will be shown from 2 to 5 p.m. each Sunday during May. The Elisabet Ney Museum will be open Sunday during May from 3 to 5 p.m., and water colors and ceramics will be exhibited.

'Hunchback' and 'Mae' Will Show at Texas

"The Informer," starring Victor McLaglen, opens at the Texas Theater Friday. For his performance in this show, the British-born actor won one of the Academy Awards in 1935.

"Heat's On," with Mae West as the star, will be shown May 22-25, and Charles Laughton in "The Hunchback of Notre Dame" will show May 25-27.

"Golden Salamander," filmed in North Africa, will open May 28, and stars Trevor Howard, co-star of "The Third Man."

Students' Compositions To Be Played Sunday

Compositions by Vernon Burns, Lowell Meister, and James Johnson, University students, will be played by the University Symphony Orchestra in a concert of student compositions Sunday at 4:30 p.m. in Recital Hall of the Music Building.

The orchestra will play Burns' "First Symphony" with two movements, "Allegro" and "Allegretto Grazioso." Also, the orchestra will perform "Passacaglia and Fugue" by Meister.

The last composition of the program will be Johnson's "First Symphony" with two movements, "Andante" and "Allegro."

Law School's 'Peregrinus' Bares Its Teeth and Grins

The 1951 Peregrinus ripples with clever photography and captions well-integrated with pictures of the law students.

The School of Law annual is dedicated to Chancellor James P. Hart, who will be presented a copy of the book in ceremonies Friday afternoon at 2:30.

Law students who have not picked up their copies may do so at Jack Proctor's office in Law Building 9E. Students who have not subscribed may also buy copies said Connell Ashley, editor.

The frontispiece shows the

Tower and the patron saint of the law school, Peregrinus.

Faculty section of the annual is introduced by a symbolic picture—a whip hanging on a wall above the bloody print of a hand. A short biographical sketch of each faculty member follows his picture.

Senior section is prefaced by the picture of a typical senior asleep over his books, with an empty bottle close at hand.

The mid-law section is begun with the picture of a studious student, surrounded by books yet en-

grossed in the comic section of a newspaper.

The freshman is shown, as all good freshmen should be, surrounded by books and dutifully reading one of them.

The organizations section picture shows a table top liberally strewn with empty coffee cups and cigarette butts.

Pictures of each organization include snapshots from parties and meetings.

The activities section advertises an ever-popular product—a tall, foaming, cool, brimming glass of freshly drawn brew.

Casis School and UT Hosts to Convention

The Lone Star (Austin) Chapter of the International Council for Exceptional Children will be convention hosts to officers of chapters throughout Texas Saturday.

The program will begin at 9 a.m. with an open house at the Austin Cerebral Palsy Center at 919 West 28th Street.

Dr. William G. Wolfe, president of the local chapter and associate professor of educational psychology at the University, will welcome visitors to Casis School at 10:30 Saturday morning. Located on Exposition Road, Casis School is the new school for exceptional children. M. G. Bowden, principal, will talk about the school's progress and a tour of the school grounds and a tour of the school will follow.

At 12:30 Saturday a luncheon will be held in the Queen Anne Room of the Texas Union. Dean L. D. Haskew will speak on "The Role of Special Education in the Texas Educational Program."

The delegates will gather in Texas Union 315 at 2 p.m. to hear two addresses. Dr. Bill L. Kell, assistant professor of educational psychology will speak on "The Place of Client-Centered Therapy in School Counseling," and Dr. Ralph Hanna, local pediatrician,

will talk on "The Role of the Physician in Special Education."

The final event will occur at 3:30 in the Union when Mrs. Bess Ward Vann, state president of the I.C.E.C. will preside over a business meeting.

The public is invited to any or all of the speeches and events during the convention.

52-Inch Boys May Take UT Swimming Courses

Swimming classes for boys 52 inches (4 feet, 4 inches) and over in height will be conducted during both semesters of the summer term at the University by Joe Bowling, physical training instructor for men.

Classes will be Monday through Friday from 8 a.m. to 12 noon in Gregory Gymnasium pool beginning June 7. The fee will be \$10 for each six weeks term.

Registration will be Monday, June 4, from 9 a.m. to 5 p.m. at the pool. Each boy is required to be present for registration and must bring a doctor's permission for swimming.

Foster Piano Concert In Hogg Tonight at 8

Sidney Foster, prominent young concert pianist, will combine ability with an unusually pleasing stage personality in his concert Friday at 8:15 p.m. in Hogg Auditorium.

On his tenth transcontinental tour since he made his debut in New York with the Philharmonic Symphony, Mr. Foster will close the season for the Community Concert Series.

Mr. Foster believes that one can do anything he desires providing he has a sincere wish to accomplish his purpose. He demonstrated this by giving concerts in his hometown of Florence, S. C., where he improvised music to go with the titles given him by audiences.

He went on to make his debut under John Barbierioli, and has since given annual Carnegie Hall recitals.
